

City of San Antonio  
Inclusive Growth Area Map User Guide

CITY OF SAN ANTONIO  
**ECONOMIC DEVELOPMENT  
DEPARTMENT**

## Basic Map Functionality:

Basic map functionality includes:

- Zoom In and Out buttons 
- Home button  that returns to the initial map extent
- Locate button  to show your location on the map
- Search tool  to search city of San Antonio addresses
- Basemap gallery button  to toggle between the COSA and hybrid basemap

## Map Widgets:

Widgets are located at the top left side of the map at all times for your use.

Widgets available for use include:

- Layers 
- Legend 
- Print 

## Search:

### Address Search

Enter an address in the search bar tool  and click on the magnifying glass icon  to zoom to the location. As you enter the address the Search tool will provide suggestions using existing addresses. Select an address from the suggestion list or you may complete the typed address to zoom to the address location.

Results of the address search will be displayed in a summary pop up window like the one below. This will include any information on the existing layers for that address.

**Note:** If an address search results in no findings a message saying “There were no results found for address...” will display below the search bar.

### Map Layers:

Expand the Inclusive Growth Layers and Data group layer to view additional individual group layers by clicking on the arrow head icon to the left of the group layer. Select individual group layer(s) to be displayed in the map by clicking on the eye on the left side of the individual group layer name.

### Map Legend:

The Map Legend widget displays the symbols for visible map layers. Layers will appear in the legend as they are turned off and on in the Layers widget.

**Note:** Some layers will only be visible at certain map extents, even if they are turned on. Zoom in to make them visible and added to the legend.
